

**Title:** Senior Structural Surveying Engineer

**Location:** Swansea

**About the role:**

We are looking for a Senior Structural Surveying Engineer to join a growing consultancy and provide ongoing technical support to a range of clients in the UK with ongoing work available and excellent development opportunities for the right individual.

As a Senior Structural Surveying Engineer, you will be working on a range of residential, commercial and industrial projects and should be able to demonstrate experience in completing structural reports and inspections on properties in these sectors.

Within the role as a Senior Structural Surveying Engineer it will be essential for the chosen individual to complete accurate reports and inspections on a range of properties in the South Wales area, so a driving licence and your own vehicle will be essential in this role.

**About you:**

Candidates should have a minimum of 6 years experience working for UK based consultancies, and a background working on similar projects is desired in order to ensure a close match to the existing and upcoming workload.

In addition to having a confident, commercial and professional outlook you should have:

- Degree in Civil or Structural Engineering
- Minimum of 6 years UK based experience
- Excellent structural report writing skills
- Proven site inspection experience
- Experience working with Steel, Concrete, Masonry and Timber materials
- Strength in working to British Standards, Eurocodes and relevant guidance
- Strong analytical, communication and technical skills
- Excellent communication skills in both written and spoken English

**About the business:**

The company are an established consultancy who have been working on UK-based projects for the last 45 years, and has built up a reputation for working on projects to a high level of detail and client satisfaction. This is an excellent opportunity to join their Swansea office where their team continues to go from strength to strength and provide excellent engineering services to their UK-based clients. With a portfolio that includes residential, commercial and industrial projects of varying value and complexity, they have a wealth of experience and some exciting future projects that have lead to them requiring another skilled and eager individual to join them as part of their business development.

**Benefits package:**

- Company pension at a matched 5%
- 25 days holiday + Bank Holidays
- Discretionary bonus
- Holiday buyback scheme
- Life Assurance
- Private Medical Cover
- Critical Illness Cover
